An offline dictionary based on Wiktionary. Offline Wiktionary for Chrome 9 and above. Uses HTML5 element, includes JS implementation of LZMA compression engine, WikiText parser, Files, FileReader, Blobs, FileWriter, WebWorkers, Typed Arrays, header/footer html tags, uses HTML5 FileSystem API, xkcd comic #214, levenshtein difference, a search engine that incorporates over 4 consumer sibilants, binary XHR, and lots of cool stuff. Definitions and suggestions appear instantly as you're typing. And please give me a Cr48. I'm also aware that I probably broke the no-perspectives rule on the icon, but the web store icon also has a perspective, so I doubt it's a huge issue. And whatever you do, do not open the web inspector, because it has memory leaks with successive file reads that happens a lot with its binary search algorithm. Not opening web inspector is fine. This is basically a pre-release of js-wikireader which is pretty much the same thing except that js-wikireader handles multiple several-gigabyte wikipedia dumps. I'm pretty certain it works pretty well already, but I haven't figured out how to get hosting and downloading (probably payment too) to work for those dumps. But anyway, the code for that (and most of this) can be found at Dictionary Offline Dictionary for Windows - Download Latest version (2.0.6) of Dictionary Offline Dictionary for PC Windows 10,8,7 64/32 bit directly from this site for free now. Download Dictionary Offline Dictionary for Windows File Name: Dictionary Offline DictionaryApp Version: 2.0.6 Update: 2018-10-24 How To Install Dictionary Offline Dictionary on Windows 10 To install Dictionary Offline Dictionary 2019 For PC Windows, you will need to install an Android Emulator like Xeplyer, Bluestacks or Nox App Player first. With this android emulator app you will be able to Download Dictionary Offline Dictionary full version on your PC Windows 7, 8, 10 and Laptop. Download and Install Android Emulator for PC Windows. Go to this page to Download Bluestacks; or Go to this page to Download Nox App Player; or Go to this page to Download Xeplyer. Click the icon to run the Android Emulator app on Windows. Login with your Google Play Store account. Then, open Google Play Store and search for "Dictionary Offline Dictionary". Choose one of the app from the search result list. Click the install button. Or import the .apk file that you've downloaded from the link on above this article with Xeplyer/Bluestacks/NoxAppPlayer File Explorer. Right-Click then install it. Now you can play Dictionary Offline Dictionary Features and Description Dictionary Offline Dictionary App Preview Came across a fascinating new word while reading an English Classic? Writing an article & looking for a more sophisticated synonym for a rather simple word? Stuck on your crossword puzzle? Dictionary+ is here with all the answers! Disclaimer The contents and apk files on this site is collected and process from Google Play. We are not responsible with abusing all of the applications on this site. Dictionary Offline Dictionary is an App that build by their Developer. This website is not directly affiliated with them. All trademarks, registered trademarks, product names and company names or logos mentioned in here is the property of their respective owners. All windows application is not hosted on our server. When visitor click "Download" button, installation files will downloading directly from the Official Site. Dict Box is an offline dictionary & translator app for 50+ languages. No internet connection required. Fast, convenient & easy to use. Very smart word suggestions. All dictionaries in one place. Translate text directly in the web browser and other apps. Offline text pronunciation. Picture dictionary. Word reminder. Plenty of dictionaries available to install. And a lot more useful features. The following languages are supported by Dict Box: English, Spanish, Arabic, French, Portuguese, Russian, German, Turkish, Vietnamese, Japanese, Korean, Chinese, Italian, Persian, Farsi, Thai, Hebrew, Urdu, Dutch, Kurdish, Indonesian, Malay, Hindi, Pashto, Swedish, Danish, Greek, Polish, Romanian, Ukrainian, Esperanto. ** Upgrade to Premium to unlock advanced features*** - Ad-free experience - Urban dictionary - Picture dictionary - Backup & sync word lists across devices & platforms You can pay once for Premium or choose from 2 subscription options - a yearly subscription - a monthly subscription. - Payment will be charged to iTunes Account at confirmation of purchase. - Subscription automatically renews unless auto-renew is turned off at least 24-hours before the end of the current period. - Account will be charged for renewal within 24-hours prior to the end of the current period, and identify the cost of the renewal. - Subscriptions may be managed by the user and auto-renewal may be turned off by going to the user's Account Settings after purchase. - Any unused portion of a free trial period, if offered, will be forfeited when the user purchases a subscription to that publication, where applicable. Privacy Policy: Terms: Offline dictionaries allows you to browse dictionaries without a network connection, such as when you're on a plane, traveling abroad, out of cellular tower range or if you want to save battery! Download dictionaries you want to the SD card the first time you launch the app and then perform simple or advance searches (with wild-cards), which come in handy when you're working on a crossword puzzle. Definitions can also be read by the device using a text to speech module (some devices don't support this and some languages may not be available) and the application can be used with ebook readers. There are more than 50 multi-lingual dictionaries to choose from, including English, French, German, Spanish, Arabic, Japanese, Korean, Hindi, Hebrew, Russian, Italian, Chinese, Portuguese, Dutch, Czech as well as synonyms and anagrams databases. Dictionaries are added and improved regularly (ask us if you want a particular one). It is possible to contribute to dictionaries and to add personal notes. Synchronize your notes with all your devices by connecting your Google account. This version is ad supported but you may want to try the pro version which has no ads. What is the first thing you do when you are stuck with a word in a text document on your PC? Well, you would open your PC's browser and search it. Right? But if you are doing this frequently, then it makes more sense to use dedicated Dictionary Apps for PC. They are fast, work offline, and offers far more features than just the definition of the word such as pronunciation, synonym, or antonym, etc. So, if you're looking for a dedicated dictionary app. Here are the best offline dictionary apps for Windows PC. Best Dictionary Apps for PC 1. Search Box Best native dictionary in Windows (needs internet) Unlike macOS, Windows doesn't have a native dictionary app, but you do get access to the online dictionary in the search box. I know it's not offline like I mentioned, but if you have access to the Internet, this option is worth considering. To access the built-in Windows search, simply press the Windows key on your keyboard and type the word for example - fox meaning. The definition is instantly displayed in the results pane on the right. To make it even better, you can type synonym or antonym followed by the word for which you want a suggestion for example - amiable synonyms. 2. The Free Dictionary Best switchable online to the offline dictionary If you're looking for an all-in-one package, you can try out The Free Dictionary. It's available on the Microsoft Store and technically, needs the internet to work. However, it also gives you the option to add offline dictionaries, by downloading packs. The file size is around 11MB and shows basic word definitions. So, don't expect word origins, part of speech, etc. The app is free however if you want to unlock more packs and remove ads (whenever the net is on) you can buy the pro version at \$3.99. Get The Free Dictionary 3. Advance English Dictionary Best for visual word depiction and US & UK pronunciation within the app Unlike the previous one, Advance English Dictionary focuses on the dictionary part. It not only shows you the word definition but also, pronunciation both in the UK and US English, figures of speech, etymology, and even an image for word definitions. It also has an intra-word search feature, i.e. you can click on any word in the app and find a meaning for it. You can also find word search history along with the option to mark several words as favorites. You don't need to worry about any ads in this app and it is completely free. Get Advance English Dictionary 4. WordWeb Dictionary Best for enabling system-wide right-click dictionary on any app We've talked about WordWeb before for its ability to find the meaning of any word using right-click on PC. Hence making it a perfect dictionary app for PC. They are fast, work offline, and offers far more features than just the definition of any word without having to open any dictionary app. Plus it's offline. For example, if you are using MS Word and you want to know the meaning of any word, simply ctrl+right click on any word. This will launch a pop-up that shows the meaning of that word and synonyms and the nearest word. The app is free and doesn't contain any ads, making it a great first choice. Get WordWeb 5. Multilingual & Subject Dictionaries Best for subject-specific or language-specific dictionary apps If you are not a native English speaker then just an English dictionary might not suffice. For example, if you want to compliment someone in Hindi or give feedback to a French-speaking user, you must have another dictionary with a foreign language. The same goes for subject-specific dictionaries for certain professions that can come in handy on your office PC. Some of them are listed below. Various Languages - Urdu Dictionary, English, Korean, Hinkhoj Hindi English Dictionary Subject Specific - Bible Dictionary, Medical Dictionary, Architecture Dictionary 6. Perfect Dictionary Best multilingual dictionary and translation app If you don't want to install language-specific dictionaries, Perfect Dictionary may help you gather all that info in one place. You can download various language packs such as Arabic, Deutsch, Greek, Italian, Japanese, Portuguese, and many more in the app. So it not only works as a dictionary app but a translator as well. I've used it for quite some time and the app gets both the meaning and translation perfectly. One unique feature that other apps miss is being able to pin the definition tile in the start menu. This can be a good way to add multiple word tiles, to remember & revise hard words. Get Perfect Dictionary 7. TheSage Dictionary & Thesaurus First off this app isn't available on the Microsoft Store, so you'll have to use the official site. This app is more than a dictionary and in my opinion, is great for artists, poets, and academics. For example, you can search for rhyming words, browse the thesaurus section, etymology, and also a phonetic search option. The app is free for the most part, but there is also a professional version which comes at \$10. It gives you automatic upgrades, custom appearance and allows commercial use. Get TheSage Dictionary & Thesaurus Closing Remarks: Which is the Best Dictionary for Windows PC So if you were looking for the best offline dictionaries on PC, I think your search might have come to an end. I've tried and tested all these dictionary apps, and have only listed the most useful ones. Since we're already on the topic, my recommendation would be to use WordWeb to enable instant definition shortcuts. If you don't want that, then the free dictionary is great with plenty of language learning features like word of the day, idioms, etc. Hope you try them all and find the perfect fit for you.
