Edit Edit source History Talk (0) Melee Mods Edit; Damage Base … Adds bonus melee damage based on Warframe ability energy usage Rare … Increases range/reach of melee attacks for a short time upon proccing a status effect Melee is a form of combat system that utilizes edged or blunt weapons and close quarter attacks. Every attack causes the player to take a single step forward. However, if the player is crouched, non-combo melee attacks will not cause a step forward. Melee weapons can be equipped in the tertiary slot of the arsenal in Warframe. Current melee weapons consist of a number of … 01/08/2021 · A permanent boost to your melee attack speed is a major DPS boost for melee weapons. Warcry is a subsumed ability. You can put this augment or Baruuk or Excalibur and use their Exalted weapons with this augment, allowing them to attack much faster than normal. If you love melee weapons in Warframe, this augment is a must. 13/08/2021 · Every weapon in Warframe has a hidden Riven Disposition stat that determines the strength of Riven Mods on that weapon. You can only see a weapon's Riven Disposition if you have a Riven Mod that can be equipped on that weapon, Veiled or otherwise. Related: Warframe: Top Melee Weapons, Ranked
